**As a one of the flagship products from the Safic's Industrial Range of chemicals, Saf Power has phenomenal degreasing strength!**

## Industrial Range - Saf Power

Saf Power is an environmentally acceptable, powerful degreaser that has been shown to effectively and rapidly clean the most difficult areas.

It has a number of properties making it unique and highly effective:

- Highly concentrated degreaser for effective cleaning of almost any surface
- Non-corrosive — safe to use
- Non-flammable
- Excellent rinsability
- Contains soil suspending agents — prevents re-depositing of dirt
- Dilutions: Floor Cleaning - 1:100 | Engine Cleaning - 1:20 | Light Duty Cleaning 1:100 | Steam Cleaning - 1:20 (Final Dilution 1:200).
- Washing trucks and busses, Used in part washers, removal of oil, petrol and diesel from cement/paving bricks,
- Overall wash
- Paraffin mixture — 1:10:10 = parts washer

Safic Industrial Range - From construction to mining, vehicle manufacturers and more, this complete, customised product range is suitable for all industrial applications. Safic has developed unique products

- SAF EA (Environmentally Approved) Range
- Workshop Range
- Electrical Maintenance Range
- Water Treatment Range
- Degreasers — Solvent/Water based for oil separation systems

### 01 Earth Moving Equipment cleaned with Saf Power.

Saf Power is highly effective in the cleaning of all large moving equipment.

### 02 Saf Power used on a dirty fuel tank.

Saf Power can be used to very easily clean tough areas as shown on this page.

### 03 A large locomotive engine cleaned with Saf Power.

The Saf Power was foamed onto the engine and then simply sprayed off leaving it completely clean.

### 04 Saf Power used to clean a Rod Mill Gearbox

Notice the baked on dirt that was removed by Saf Power without damage to the paint.
