Safic boasts an incredibly wide selection of chemicals to meet your cleaning and maintenance requirements, specifically tailored for your environment.

### Food and beverage range

This product range was especially developed for use in food preparation areas where the high standards of food safety cannot be compromised.

All products in this range are SABS certified thereby ensuring the high quality is maintained.

### Commercial range

From office maintenance to public facilities, this range offers the complete solution for daily maintenance in all areas. Regarded as the trusted range for healthcare facilities and schools because of the high dilution ratios, good value is derived from the use of these products.

### Industrial range

Caring for the environment is a core element of Safic's business. This range of chemicals is environmentally friendly and includes chemical spill kits, heavy duty degreasers and acid neutralisers.

### Specialised and vehicle range

Fleet maintenance is covered! Featuring a whole range of products dedicated to keep vehicles in a pristine condition, from exterior to upholstery, windows to tyres.

The specialised products range varies from metal treatment and electrical maintenance products to those specifically developed to client specifications such as SAF Craft, developed for the aviation industry.

### Floorcare range

In partnership with FloorworX, a trusted brand in the flooring industry, Safic developed a range of products that will bring the life back to any floor.

Strip and seal products, carpet care products and daily maintenance products for all types of floors in all types of areas. Vinyl, laminate wood and industrial floors are just some of the floors that this range supports.

### Equipment range

As a distributor of a number of the worlds' highest quality machines and equipment representing top brands, Safic has the range to meet your daily maintenance requirements.

Vacuum cleaners, floor scrubbers, rotary machines and fully equipped

janitorial trolley systems are just some of the products available.

### Why choose Safic?

We offer:

- Expert, technical advice for the application of all our products.
- An onsite Quality Assurance team to ensure consistency for all products.
- Proactive sales team on call to service clients in most parts of SA.
- A dedicated Service Centre that provides customer support.
- Additional products and services that support our chemicals such as cleaning equipment and accessories and an onsite workshop to service all related machinery.

By using our chemicals you can be certain of excellent product quality, minimal environmental impact and high health and safety standards!

For additional information or assistance with your cleaning and maintenance requirements, please contact our Service Centre on: +27 11 406 4008
