ENVIRONMENTAL SOLUTIONS

Accentuate
An Accentuate Limited Company

DEGREASERS

Saf Power

Water Based Heavy Duty Degreaser

Key features:

- Highly concentrated degreaser for effective cleaning of most surfaces
- Non-corrosive – safe to use
- Non-flammable
- Excellent rinsibility
- High dilution ratios

Item Code: P005

Saf EA Extreme Force

Heavy Duty Triple Strength Environmental Solvent Degreaser Cleaner

Key features:

- Effectively removes open gear lubrication, greases, oils and dirt from components
- Keeps dirt in suspension, no redepositing on surface
- Easy rinsing and leaves clean surface dry with no residue and ready for painting or assembling
- Quick split emulsion, to allow easy separation of oil and grease from effluent water
- Reduces environmental and health risks

Item Code: EA017

ELECTRICAL MAINTENANCE

Non-flammable Electrical Safety Solvent

Key features:

- Non-flammable
- Non-conductive
- Quick drying
- Leaves no residue
- Removes carbon, dirt and oil effectively

Saf Non-Flash

Item Code: N002

Environmentally Acceptable Electrical Safety Solvent

Key features:

- Environmentally acceptable
- Readily biodegradable
- Safe to use
- Made with renewable solvents

Saf EA Contact

Item Code: EA004

Transformer Cleaner

Key features:

- Water based and safe to use
- Effectively removes the baked-on transformer oil and organic deposits from the painted surfaces
- Highly concentrated
- Effectively removes carbon deposits from electrical equipment
- Spilled oil from leaking fittings and gaskets can effectively be cleaned away

Saf E Transclean

Item Code: FWXW001

ELECTRICAL MAINTENANCE

De-moisturizer / Anti-corrosion Treatment

Key features:

- High affinity for metal
- Displaces water/moisture
- Seals and protects electrical equipment
- Reduces electrical sparking and arcing
- Does not emulsify
- Metal protector

Saf Dem

Item Code: D002

DE-SCALERS / DE-RUSTERS

Strong Effective Cleaner & Deruster

Key features:

- Strong effective cleaner for the removal of oxidation and dirt from non-ferrous surfaces
- Leaves surfaces clean and bright
- Penetrates through tough deposits
- Removes cement from tankers, buildings and windows

Saf Non-Ferrous

Item Code: N003

De-ruster

Key features:

- Degreases, de-rusts and etches concrete
- No fumes
- Can be heated in dip-tanks
- Remove organic material from surfaces
- Protects metal after derusting

Saf Met

Item Code: M003

COOLING / WATER TREATMENT

Water treatment for Industrial use

Key features:

- Treatment of industrial reservoirs and cooling systems
- More stable than chlorine
- Liquid format that dissolves easily in water
- Shock treatment = 1: 10 000;
Light treatment = 1: 25 000;
Maintenance = 1: 60 000

Item Code: T003

Chemical De-scaler

Key features:

- Acid based
- Contains inhibitors
- Safe on copper, brass and steel
- De-rust and descales

Item Code: D003

HAND CLEANERS

Abrasive Hand Cleaner

Key features:

- Contains, fine, light, round abrasives – won't clog drains
- Round abrasives improve physical removal of dirt without damaging the skin
- Contains emollients to avoid drying out of skin
- Effectively removes grease, dirt and grime

Item Code: G003

HAND CLEANERS

Heavy Duty Liquid Hand Cleaner

Key features:

- Effectively removes grease, dirt and grime
- Used as an all over body shampoo
- Conditions the skin whilst cleaning

Saf Heavy Duty Hand Cleaner

Item Code: C002

SPECIALISED MAINTENANCE PRODUCTS

Non-Flammable, High Effective, Penetrant, Releasing Agent And Rust Loosener

Key features:

- Non-flammable
- Lubricates
- Acts as a corrosion inhibitor
- Loosens rust in parts and hinges
- De-moisturises equipment

Saf Pen

Item Code: P003

Anti-seize Compound

Key features:

- Non-flammable
- Safe on metal, natural and synthetic rubber
- Decreases corrosion, rust and seizure
- Reduces friction and wear on metal and rubber parts
- Acts as a sealant for gaskets
- Reduces thread distortion by heat
- Facilitates the easier dismantling of equipment

Saf Eze

Item Code: E005

EARTH RANGE

Saf EA Delta Force

Environmental Hydrocarbon Encapsulan

Key features:

- Encapsulate and fixate contamination in soil and sand including heavy metals, diesel and other hydrocarbons
- Removes oil, diesel and petrol from hard surfaces. After use the product becomes inert
- Encapsulated pollutant will not leach
- Reduces the risk of ground water contamination
- Avoids pollutant getting into ground water
- Non-toxic, odourless, non-combustible

Item Code: C031

Hydrocarbon Spill Absorbent

Saf EA Zorb

Key features:

- Environmentally acceptable
- Biodegradable
- Non-abrasive
- Removal of hydrocarbon spillages – oil, diesel, petrol and solvents
- Absorbs up to 6 times its own weight
- Also available in "Sox" and "Pillows"

Item Code: S028020

Maintenance 360° Solutions:

Products

- Comprehensive range of solvent and water-based degreasers and cleaners, coatings, lubricants and other specialist maintenance chemicals.

Equipment

- Comprehensive range of heavy-duty utensils and brush ware, pressure washers, dosing and proportioning systems and safety related protection equipment.

Support

- Installing the 360° system, with qualified staff to assist on site.

Site Information

- All information required by auditors and inspectors, easily available and on site.

Training

- Comprehensive training by qualified personnel on the safe and efficient use and application of Safic's products and equipment.

Improvements

- Working with our customer to identify risks and implement improvements to their cleaning and maintenance systems.
